

Rapsona®

2026

THE FOUNDATION FOR MODERN, ECO-FRIENDLY COOKING.

At Rapsona, we know that every hour in the kitchen is important. That's why we continuously improve our product selection – to help make your life easier. But we aren't satisfied there; we continue to develop our products so that you can make well-prepared and delicious food. When all of your customers are satisfied, we are satisfied.

Using Swedish pressed rapeseed oil as the basis for most of our products, we lay the foundation for modern, eco-friendly cooking. A smart approach also means using the right products to make the process easier – products you can use at a reasonable cost and that guarantee excellent flavour and quality of the prepared dishes.

AAK HAS A WIDE SELECTION OF RAPESEED OILS.

Thanks to local access to rapeseed and our own pressing operation, we can offer oil from both traditional seeds and special varieties. Because of the colder climate, Swedish oil has a higher omega-3 content compared to oil originating elsewhere in Europe. Through a gentle process and meticulous care, we obtain oil with optimal flavour and sustainability, as well as a high content of naturally occurring vitamin E. Both conventional and new varieties of rapeseed oil with a high oleic acid content have the lowest saturated fat levels of all vegetable oils. High in monounsaturated fat and with numerous areas of application, rapeseed is unique.

EKOLOGISK

ORGANIC RAPESEED OIL KRAV 2 LITER/10 LITRE

VEGETABLE DEEP-FRYING OIL

DEEP-FRYING IS SIMULTANEOUSLY SIMPLE AND CHALLENGING.

It is a quick way to make delicious, simple food – and at the same time, the oil is undergoing numerous processes. Different conditions require different solutions. Rapsona offers several different products for deep frying. If you expect a great deal from your deep-frying oil and want to reduce saturated fat by up to 80%, then choose **High Oleic – the new generation of deep-frying oil.**

DEEPFRY 10 LITRE, BAG IN BOX
885292 (7348-4694) Deepfry 10 L, 80 stk/pallet
885885 (7348-3354) BIB, 10L, 80 pcs/pallet
Simple and robust deep-frying oil.
100% rapeseed oil with anti-foaming agent.

LONG LIFE 10 LITRE
884291 (6595-4564) Long Life 10 litre, 80 pcs/pallet
Classic deep-frying oil that produces crispy, golden results. A blend of vegetable oils and anti-foaming agent.

LONG LIFE SG 10 LITER, BAG IN BOX
892892 (6961-3094) Long Life SG Bag In Box 10 litre, 80 pcs/pallet
Rapsona Long Life SG is particularly suitable as a frying oil thanks to its good oxidation stability. Thanks to its low melting point, it is also very easy to use. Rapsona Long Life SG contains only RSPO certified sustainable palm oil supplied according to Segregated principles.

SUPER LONG LIFE 10 LITRE
886293 (6333-4574) Super Long Life 10 litre, 80 pcs/pallet
Extra long-lasting deep-frying oil with less than 1% trans fat. A blend of vegetable oils and anti-foaming agent.

HIGH OLEIC 10 LITRE
899875 (5074-4464) High Oleic 10 litre, 80 pcs/pallet
A deep-frying oil for the new generation: the highest quality with less than 1% trans fat. Palm oil free. Blend of vegetable oils.

RAPSONA'S DEEP-FRYING TIPS

ADVICE TO HELP YOUR DEEP-FRYING OIL LAST LONGER!

1. Filter your deep-frying oil if it contains food residues.
2. Reduce the temperature of your fryer when it is not in use.
3. Always cover the fryer when it is not in use.
4. Add fresh deep-frying oil now and then.

AKK DALBY IS THE NORDIC REGION'S LARGEST PRODUCER OF MAYONNAISE.

The basis of our mayonnaise is pressed rapeseed oil from AAK. AAK's unique oil contributes to ensuring a proper consistency and good nutritional value. Our mayonnaises have a clean, neutral flavour, thanks to the purity of pressed rapeseed oil from AAK. We have a wide selection of different varieties to suit our customers' specific needs.

Talk with your salesperson and we will help you with products and what sized containers are available, to ensure you get what you want.

TOP TEN TIPS FOR GOOD OIL MANAGEMENT

1. Do not overfill the fryer basket.
2. Clear any residues from the oil regularly.
3. Cover the fryer when not in use.
4. Remove moisture and excess crumbs before frying.
5. Fry at the proper temperature.
6. Turn off or reduce the temperature when the fryer is not in use.
7. Filter daily and fill up to the proper level.
8. Measure the TPM to see if the oil needs to be changed.
9. Wash and dry the fryer well before filling with fresh oil.
10. Get rid of used oil responsibly.
